

NFZ-300

Sales@noflyzonelaser.com for more information

Product description:

NoFlyZone auto laser units are a highly effective way of deterring birds from large areas. These are setup to automatically cover an area from a central point or one side of an area. These lasers pan and tilt over an area which is set as required. Saving time, money and labour, a cost effective bird deterrent system.

Specifications:

- Model Number: NFZ-300
- Laser class: 3B
- Laser output power: 80mw
- Laser wavelength: 532nm
- Rotation: 350°
- Tilt: 20° downward, 90° upward
- IP Rating: IP65
- Operating Temperature: -5°F to 104°F
- Preset positions: 80
- Modes: Sequence & Random
- Laser coverage distance in sunlight: up to 328 Feet*
- Area covered: up to 7 acres in daylight*
- Package includes: Birdzout auto laser unit, controller with keypad and joystick, emergency stop switch, power supplies for mains and 12v connections.
